
Outer Grease Seals

By Victor West

Rear axle outer grease seals for the C-10 and C-17 are impossible to find. They have a six bolt mount. You can rebuild one, but getting the right size seal is questionable and one on my car had been improperly rebuilt. *Then and Now Automotive* in Weymouth Mass. makes new ones with modern modifications and an improved seal. They cost \$49.50 and are wonderful. 781-335-1579; www.then-now.com/
