S-2 Dashboard Paint or Woodgrain?

The sales brochure for the 1936 DeSoto S-2 (Airflow III) shows the dash to be painted in the same color as the steering column with only the glove box doors and the center ash tray woodgrained.

But the sales brochure does not tell all of the story. Nearly all of the S-2s that **Jim Lightfoot** has seen, including his coupe have the entire dash woodgrained.

Dashboards on the S-2 DeSoto, were painted a single color or woodgrained all over. The window trim and rear seat grab bar as well are woodgrained. There are also some trim pieces in each door panel and on the back of the front seat that are woodgrained.
