

Dear Bob:

Just a word to tell you I enjoy the Airflow Newsletter and pass along some information I ran across the other day.

I needed a new clutch disk for my "C1" so I went to a supply house that has some parts for older cars. They didn't have a "C1" disk but checking through their book on other clutches we found that an 11-in. Chevrolet clutch disk would replace the "C1" disk perfectly.

Sincerely yours,  
NORM FREY
