TECHNICAL

cause we all have questions!

Modern Airflow Fanbelt Numbers

Modern number fan belts that will work with a 323 8-cylinder Airflow are the: Gates 599, Dayco 24458, Goodyear or Kelley #50, Raybestos 563, Miller V14.

You will find these crossover numbers on the Airflow Club CD reports **John Spinks**. If you do not have a copy of the "all inclusive" Airflow Club CD, order yours from the Club Store. Reference material on the CD is very practical and will save you many hours in searching out your part needs. The DeSoto fan belt is listed as a Dayco 24420.

**Glad
you
asked that**

A LIST OF PART NUMBERS THAT MAY BE HELPFUL IN RESTORING AND MAINTAINING OUR AIRFLOW CARS. It should be noted that I have a C-10 and therefore, in most cases the numbers are peculiar to Chryslers and in some cases do not apply to Chrysler Airflows of other models.
